

Join B.E.S.T. in educating our children about the environment

This year B.E.S.T. is launching a "Think Green" campaign that will allow us to bring curriculum enriching programs into our elementary schools to help educate our children on ways to protect and care for the environment.

One of the first steps towards our goal is to get our children and community thinking about ways that we can recycle and reuse items in our everyday life. With this in mind, we are producing reusable grocery totes that have been adorned with artwork from our very own elementary school children.

We hope you will help us take the first step by buying multiple totes to use when you grocery shop, send items into school with your children, or take a trip to the beach.

Visit our website www.bestforboxford.org to see a color rendition of the reusable grocery totes.

You can order totes online or by completing the form below and returning it to the school office via backpack or to **Kelly Jung @ 104 Great Pond Drive** along with a check made out to **B.E.S.T.** Once the bags are in we will notify you by e-mail and you can either pick them up or we'll send them home via your child's backpack.

Name: _____

Child's Name: _____ Teacher: _____

E-mail Address: _____

Quantity: (Check the appropriate Box)

5 Bags for \$20 3 Bags for \$15 2 Bags for \$10 1 Bag for \$5

Other Quantity: ____ @ \$5 each = _____
